

Gorgeous in GREY & YELLOW

The infectious charm of yellow gets a modern twist when paired with the urban elegance of a grey palette. Ranging from soft to striking, this colour combination is a triumph in modern femininity.

What makes a colour combination work? It has to be absolutely effortless, fashionably balanced and an instant success that works either dressed up or down in all shades and variations. That's why it is easy to see how the combination of grey and yellow just works. Grey is a colour that most women already have in their wardrobes. From a pair of tailored trousers, a pencil skirt, skinny jeans or even a chic coat, grey works as a basic item. It's this simplicity that gives yellow the foundation to work its magic. It adds vibrancy, happiness and fun – everything this cheerful hue is known and loved for. Make sure when combining greys and yellows to keep the shading similar – if it's slate add gold, if it's charcoal add butter, if it's mushroom add lemon. For skin tones that prefer warm colours, echo the warmth in your choice of shades and go for saturated yellows and dark greys. If a cool colour option is more suited to your skin tone, choose the gentle effect of subtle yellows matched with faded greys. **For more information visit Chata Romano at www.chataromano.com.**

Soft skin tone

A soft skin tone looks vibrant and youthful with the correct choice of yellow and grey shades. Keep the overall tone of the colours soft and stay away from bright yellows and very dark greys.

Medium skin tone

Find the perfect middle ground when combining greys and yellows for a medium skin tone. Swap very soft and very dark colours for a bright and fresh palette.

Deep skin tone

A deep skin tone carries confident yellows and strong greys beautifully. These shades match the boldness of the deep skin tone while subtle, fresh shades go unnoticed.

Rich skin tone

There's nothing more beautiful than intense colours with a rich skin tone. Make your yellows strong and bold, not gentle, and opt for greys that are bold, not pale.

Magical makeovers
